Summary

Full Stack Java Developer with hands-on experience in Java, Spring Boot, React.js, MySQL, RESTful APIs, JWT Authentication, and AI-assisted development tools. Strong foundation in Data Structures & Algorithms, OOPs, and Software Engineering with a passion for building secure, scalable, and user-centric web applications.

Skills

Languages : Java, JavaScript, Python

Frontend : JavaScript, React.js, Tailwind CSS, HTML, CSS

Backend : Core Java, Spring Boot, Spring Security, Hibernate, JDBC, REST APIs, JWT Authentication

Database : MySQL, SQL

Cloud & DevOps : AWS (EC2, S3), Docker

Tools : Git, GitHub, Maven, Postman, [ChatGPT](#), GitHub Copilot, [Gemini](#)

Others : DSA, Problem Solving, OOPs, DBMS, Collections Framework, Exception Handling, Multithreading, Java 8, Lambda Expressions, Stream API, JSON, MVC Architecture

Experience

Software Developer Intern | Sanyu InfoTech

Dec 2025 - Jun 2026

Pune, India

- Developed and maintained full-stack web application features using Java, Spring Boot, React.js, and MySQL.
- Designed, developed, and integrated RESTful APIs using Spring Boot and MySQL.
- Collaborated with the development team to debug applications, optimize performance, and deliver scalable, high-quality software solutions.
- Performed debugging, API testing using Postman, and code optimization to improve application quality.

Projects

PlanMyTrip – Full Stack Travel Planning Web Application

- **Tools & Technologies:** Spring Boot, MySQL, JWT Authentication, RESTful APIs, HTML, CSS, JavaScript, Postman, Git.
- Developed a full-stack travel planning web application using Spring Boot, HTML, CSS, JavaScript, and MySQL with 20+ RESTful API endpoints.
- Built RESTful APIs with JWT-based authentication and integrated MySQL for secure data management.
- Designed a responsive interface with destination management and secure user authentication.
- Analyzed user requirements and implemented innovative travel planning to improve usability, User experience, and overall application efficiency.

QuickBite – Full Stack Food Ordering Application

- **Tools & Technologies:** React.js, Java, Spring Boot, Spring Security, Hibernate, CRUD Operations, API Development, API Testing, MySQL, JWT, REST APIs, Maven, Postman, Git.
- Developed a full-stack food ordering application using React.js, Java, Spring Boot, and MySQL.
- Implemented RESTful APIs, JWT-based authentication, role-based authorization, restaurant, menu, customer, and order management modules with seamless frontend-backend integration.
- Optimized backend performance, secured user data with JWT Authentication, and integrated React.js frontend with Spring Boot backend to deliver a responsive and scalable user experience.

Education

B.Tech in Computer Science and Engineering

Nov 2022 - Jun 2026

Sharad Institute of Technology College of Engineering, Yadav, Kolhapur.

ACHIEVEMENTS & CERTIFICATIONS

- **AWS & Academy Certificates:** Cloud Foundation & Cloud Architecture.
- Achieved 93.5% in the **NPTEL The Joy of Computing using Python Programming** certification examination conducted by NPTEL in association with IIT Ropar.
- Successfully completed the **NPTEL Cryptography and Network Security** certification with a score of 72%, offered by IIT Kharagpur.
- Published research paper titled "Early Detection of Brain Rot via Social Media Usage Patterns" in JETIR.
- Solved 500+ problems on LeetCode and earned the 365 Days Consistency Badge.
- Coordinator – **National Level Events** Impetus and Innovation.

2023 - 2024
